October 31, 2002

APPLICANT: Westinghouse Electric Company

PROJECT: AP1000 Standard Plant Design

SUBJECT: SUMMARY OF MEETING HELD ON SEPTEMBER 9, 10, AND 11, 2002,

REGARDING WESTINGHOUSE ELECTRIC COMPANY'S AP1000 DESIGN

**CERTIFICATION APPLICATION** 

Westinghouse Electric Company (Westinghouse) hosted a Category 1 public meeting on September 9, 10, and 11, 2002, at the Westinghouse Energy Center in Monroeville, Pennsylvania. The primary purpose of the meeting was to discuss the NRC staff's requests for additional information (RAIs) regarding AP1000 piping design topics that were issued on September 4, 2002 (ADAMS Accession No. ML022470255). The September 9, 2002, portion of the meeting was open to the public. Portions of the meetings conducted on September 10 and 11, 2002, involved discussions of information that was proprietary in nature. Consequently the September 10 and 11, 2002, meetings were closed to the public (in a letter dated September 4, 2002 [ADAMS Accession No. ML022470234] the Nuclear Regulatory Commission [NRC] staff documented the completion of its review and approval of Westinghouse's request for withholding the information from public disclosure). During the proprietary portions of the September 10 and 11, 2002, meetings, the NRC staff reviewed proprietary documents that addressed the AP600/AP1000 general piping layout criteria, piping design criteria, pipe rupture protection criteria, piping design specifications, and piping isometric drawings. Enclosure 1 is a list of the meeting attendees. Enclosure 2 is the meeting agenda. During the meeting on September 9, 2002, Westinghouse distributed a document comparing the System 80+ and proposed AP1000 piping design acceptance criteria (DAC) (Enclosure 3).

Enclosures 2 and 3 may be accessed through the Agencywide Documents Access and Management System (ADAMS). This system provides text and image files of NRC's public documents. The agenda and handouts mentioned above may be accessed through the ADAMS system under Accession No. ML022890485. If you do not have access to ADAMS or if there are problems in accessing the handouts located in ADAMS, contact the NRC Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to <a href="mailto:pdr@nrc.gov">pdr@nrc.gov</a>.
